Garrison Announces Investor Relations Agreement between Asia Intercept Mining Group and Wakabayashi Fund LLC

Toronto, Ontario - Friday, June 26, 2009

Investor Relations Agreement

Garrison International Ltd. (GAU: TSX-V) ("Garrison") announces that it has been informed that Asia Intercept Mining LLC ("AIM") has retained Wakabayashi Fund LLC ("Wakabayashi Fund") of Tokyo, Japan, to provide institutional investor relations services to AIM (the "IR Services"). This arrangement is of significance to Garrison and its shareholders because Garrison's Tovshiir property is held as to 25% by AIM and as to 75% by Garrison. AIM is controlled by Anthony Bainbridge and Danny Sun, both of whom are directors of Garrison. In addition, Mr. Bainbridge is an officer and control person of Garrison.

Garrison acknowledges that because it shares an interest in the Tovshiir property with AIM, and as a consequence of the IR Services provided to AIM by Wakabayashi Fund (such as assistance with presentations to investors with respect to investments in AIM, help with the development of fund-raising strategies for AIM, as well as presentation of AIM to potential investors with a view to raising general awareness of AIM), the IR Services may relate to, and have an indirect impact on Garrison.

Garrison confirms that the IR Services will be provided to AIM by Wakabayashi Fund independently and without any authorization or assistance from Garrison. Wakabayashi Fund does not have any authorization from Garrison to issue any press releases on Garrison's behalf.

In performing of the IR Services, Wakabayashi Fund will only use materials which are currently available in the public domain. Furthermore, Garrison accepts no responsibility for material or information disseminated by or on behalf of Wakabayashi Fund.

Finally, Garrison confirms that AIM will be responsible for the fees of Wakabayashi Fund, and no payment for the IR Services will be paid by Garrison.

About Garrison

Garrison is a junior mineral exploration company focused on acquiring and developing advanced stage gold properties in Mongolia.
